# Affle

The Affle Switch stay true to the essence of functionality while diffusing a new sense of life – delivering a gentle touch to your fingertips.

Design by leading industrial designer Frédéric Beuvry and Schneider Electric design team, the team are aimed to craft the perfect balance of industrial trend and timeless aesthetics design.

Likewise, the team has received numerous prestigious award and prizes.

## Design Excellence

Schneider Electric and Its International Design Team

Established in France, Schneider Electric is the global specialist in energy management and automation that created the modern switching technology. For more than one hundred years, Schneider Electric has relentlessly in upholding the mission to continuously deliver perfect household innovations enabling smarter living, and make your home beautiful yet safe.

## Excellence in Quality, Refined French Design

### Eiffel Tower Inspired Design

Affle switch is avidly designed by Schneider Electric leading industrial designers with the inspiration from the European concept.

It perfectly blends the classic design and pair with rounded corners crafting into a new trend of minimalist.

### Aesthetic Design

Inspired from the design of Eiffel Tower in Paris, the streamline design of Affle switch is crafted elegantly and neat.

### Excellence in Quality, Built to Last

Using high-quality imported Bayer PC material, the Affle switch has high heat resistance, high flame retardant without colors fading. With glossy cover texture, it is more durable and extra reliable.

### Finest Material, Reliable Service

At Schneider Electric, we believe in adhering stringent quality control process and ensuring good customer experience, even after-sales.
